- Ms. Despina Pastrikos
- Mr. Kosta Barkoukis
- Mr. George Apostolou
- Mr. Sotiri Phillis
- Mr. Phillip Limberis
- Ms. Maria Limberis

*Dear ladies and gentlemen*

The installation and assembly of the endoscopic tower at our Hospital was recently successfully completed by technicians from Endoscopiki, the company that represents FUJIFILM in Greece. At last, a protocol for its quantitative and qualitative acceptance has been drawn up and from now on we will use our new scopes.

We all would like to express our warmest thanks for your kind initiative to donate such a necessary and modern endoscopy unit, which will enable us to offer quality services to our young patients and improve our difficult medical work.

It would be an omission from us not to thank "**The Greek Fire Appeals Committee, supported by the South Australian Government and the Greek Orthodox Community of South Australia**" as this organization contributed almost the 40% of the cost of the endoscopic equipment and we would appreciate if you transmitted to them our present note of thanks.

With your actions, not only do you help our Children's Hospital to meet its needs for reliable medical care, but also demonstrate the moving love that Diaspora Hellenism has for the motherland. You serve as a bright example for other organizations to imitate such acts of kindness.

Finally, we would like to inform you that the pharmaceutical company "UNI PHARMA - Kleon Tsetis Pharmaceutical Laboratories SA" donated us a normal 32" screen to replace the screen that was

damaged during transport, as well as a compatible wheel for the installation of the accessories of the endoscopic tower.

We are looking forward to any other corresponding future action of yours.

We will immediately post our present letter with photos on our website and we declare to you once again that we are truly obliged.

ANDREAS P. TOSKAS MSc  
Deputy Managing Director
